

ECKHARTQUEST 2022

OCEANS OF POSSIBILITIES

SCAVENGER HUNT

Hello!

We're happy to have you on this expedition! Today we'll be looking for ocean life in Auburn Sound -- whales, fish, some creatures in the reef and some in the deep. There's even talk of a sea monster in the southern waters! This is a scientific expedition -- but perhaps we'll discover a new species!

Using the included Nautical Chart, look for creatures in the area. If you see one, record information about it. Once you're done, return to the Eckhart Institute for Oceanic Science (Eckhart Public Library). You'll receive one Read. Do. Explore. prize entry for each documented creature, as well as five bonus entries if you can find each one!

Checking in on the marine life helps us know about the health of our ecosystem -- the plants, animals and weather in our environment. Thanks for your help! Anchors away!

- Captain Charles

NAUTICAL CHART -- AUBURN SOUND -- 2022

DATE: _____

WEATHER CONDITIONS:

TEMPERATURE: _____

TIME OF SIGHTING: _____

CREATURE: _____

WEIGHT: _____

LENGTH: _____

PHOTOGRAPHIC RECORD:

A large, empty rectangular box with a thin black border, intended for a photographic record.
